

Critical Kare Pharma

World-Class Critical Care & Oncology Medicine Supplier

COMPANY PROFILE & CORPORATE BROCHURE

Critical Kare Pharma is a trusted global wholesaler, trader, and exporter dedicated to bridging the gap in specialty medicine access. We provide authentic, high-quality oncology and critical-care drugs to hospitals, clinics, pharmacies, and patients worldwide, backed by pharmacist-reviewed ordering, batch-level traceability, and cold-chain logistics where required.

At a glance

- Specialty oncology & critical-care medicine wholesaler, trader, and exporter
- Sourcing exclusively from GMP-certified and licensed manufacturers
- Cold-chain and temperature-controlled shipping for sensitive biologics
- Worldwide delivery including USA, UK, EU, Switzerland, Australia, UAE & Canada
- 24/7 pharmacist support and prescription verification workflow

Our Mission

At Critical Kare Pharma, our mission is simple: to make authentic, high-quality cancer and critical-care medicines accessible to patients, hospitals, clinics, and pharmacies around the world. We combine strict quality controls with responsive service so clinicians and caregivers can rely on timely delivery of specialty drugs.

What We Offer

- Specialized Oncology Medicines — a focused catalog of cancer medications and supportive care drugs used across chemotherapy, targeted therapy, and hormonal therapy.
- Bulk & Retail Supply — competitive pricing for wholesale buyers alongside convenient single-pack options for individual patients and specialty clinics.
- Global Shipping Logistics — international logistics and secure shipping solutions ensuring orders reach healthcare providers and patients worldwide.
- Trusted Manufacturer Partners — we work only with verified, GMP-compliant manufacturers and licensed distributors for guaranteed authenticity.

Quality & Compliance

- Sourcing from GMP-certified and licensed pharmaceutical manufacturers.
- Batch traceability and documentation for every single shipment.
- Temperature-controlled packaging for cold-chain handling requirements.

- Full compliance with international export/import regulations.

How Ordering Works

01. Browse & Quote

Browse our catalog or contact our sales team for bulk quotation requests.

02. Documentation

Provide required prescription or institutional purchase documentation where applicable.

03. Confirmation

We confirm availability and provide secure shipping options with real-time tracking.

04. Secure Dispatch

Professional packaging and dispatch with continuous monitoring until delivery.

Markets We Serve

We regularly ship to patients and institutions across the following regions, handling export documentation and customs support along the way:

- United States
- United Kingdom
- European Union (Germany, and other EU member states)
- Switzerland
- Australia & New Zealand
- United Arab Emirates
- Canada
- India, and worldwide on request

Why Healthcare Providers & Patients Choose Us

- Oncology Expertise — focused inventory and deep knowledge of cancer medicines and supportive treatments.
- Reliable Sourcing — direct partnerships with reputable manufacturers reduce risk of counterfeit products.
- Flexible Ordering — from single packs for patients to pallet-level bulk shipments for hospitals.
- Worldwide Logistics — experienced in international shipping, customs paperwork, and temperature-controlled transport.

Patient Safety & Support

We only supply medicines for legitimate medical use and strictly follow legal prescription requirements. Our dedicated support team assists with documentation, product queries, and real-time shipping status. We encourage patients to consult their treating physician or pharmacist before changing or starting any medication.
